

Shine & Go Silicon Clean

Revives paintwork and varnish

Leaves a protective dry sheen

Spray

TYPE OF USE

Silicone based spray to polish the whole motorcycle.

Fairing, plastics, dashboard, rims, mudguards, crash bar, paintwork, varnish...

Particularly recommended to obtain an as new finish after steam pressure washing which tends to tarnish colors.

PERFORMANCE

Polishes and revives the colours in plastic, paintwork and varnish on the whole motorcycle.

Dries evenly and leaves a protective dry sheen.

Protects paintwork and varnish from dust, insects, and mud...

Repels water and dirt.

RECOMMENDATIONS

If the motorcycle is very dirty, wash with MOTUL MOTOWASH.

Shake MOTUL SHINE & GO before use.

Spray from a distance of 25 cm.

Leave to dry for a few moments.

Polish with a soft cloth to obtain a perfect finish.

CAUTION: Do not project the product on handgrips and on the seat.

SECURITY

Refer to the MSDS sheet and the information mentioned on the spray.
