

PARTS CLEAN moderate dry

Non-chlorinated degreaser for mechanical parts

Aerosol

TYPE OF USE

MOTUL Parts Clean moderate dry is a non-chlorinated degreaser for mechanical parts. Suitable for a wide variety of applications due to an elastomer and plastic friendly formula.

Brakes and clutches

All brake and clutch pad residues...etc.

All mechanical parts and systems

Engine dismantling, spark plugs, levers, brake axles, clutch mechanisms and shock absorbers, chain stops and adjusters, oil, grease, tar residues...etc.

PERFORMANCE

Dissolves oil, grease and tar. Leaves no marks. No need to rub.
Quick drying for ease of use in a workshop environment.
Eases assembly and disassembly of mechanical parts.

RECOMMENDATIONS

Shake before use.
Spray from a short distance on the areas to be cleaned.
Respray on very dirty areas.
Evaporates quickly.

SECURITY

Refer to the MSDS sheet and the information mentioned on the aerosol.
