

DPF CLEAN

Diesel

Diesel DPF cleaner

Additive to add to Diesel fuel

TYPE OF USE

MOTUL DPF CLEAN is a DPF cleaner additive designed to be used in all types of Diesel engines, with indirect or direct injection, naturally aspirated or turbocharged, with DPF (Diesel Particulate Filter) and/or with SCR (Selective Catalyst Reduction) systems.

MOTUL DPF CLEAN is based on a High-performance additive to reduce soot and exhaust gas emissions and to increase engine performance. Supports the regeneration of the Diesel Particulate Filter, increases cold start properties and reduces exhaust smoke formations.

Regular use of MOTUL DPF CLEAN helps to keep the Diesel Particulate Filter clean, avoids expensive repair works, for long lifetime duration of DPF & Turbocharger.

For use in all Diesel engines and suitable for all kind of Diesel fuels.

PERFORMANCE

A clean DPF system is a necessary condition for an effective engine functioning. By increasing DPF regeneration performance, MOTUL DPF CLEAN thanks to its high performance additives allows to:

- Faster and more efficient cleaning of the DPF
- Maintenance of the cleanliness of the DPF
- Increased reliability

The use of MOTUL DPF CLEAN will ensure:

- Improved engine performance and driving pleasure
- Increased power: improved start-up, idling and acceleration
- Reduced fuel consumption and pollutant emissions at the exhaust

RECOMMENDATIONS

Pour one whole can of MOTUL DPF CLEAN in the Diesel tank before refueling.

One dose of 300 ml is sufficient for Diesel fuel tanks up to 60 liters.

To maintain the benefits of DPF cleaning, use MOTUL DPF CLEAN regularly every 5.000 km for optimal performance.

Product works during operation. Avoid overdosing!

Do not exceed the recommended proportion.

SECURITY

Refer to the MSDS sheet and the information mentioned on the product label.
