

The MOTUL logo is displayed in white, bold, uppercase letters on a red background that curves downwards to the right.

# Plastics Microfibre

**Embossed microfibre for plastic surfaces**

**Reusable and machine washable**

## **TYPE OF USE**

MOTUL® Plastics Microfibre is an embossed microfibre that allows to clean all surfaces in the passenger compartment.

Captures dust and absorbs greasy film and stains without any scratches.

## **PERFORMANCE**

Thanks to its large embossed structure, MOTUL® Plastics Microfibre is non-aggressive for plastics and does not attack paints and varnishes.

It captures dust and absorbs greasy film and stains without any scratches.

## **RECOMMENDATIONS**

Spray MOTUL® Plastics Clean onto the microfibre.

Clean the surface and wipe with a clean side of the MOTUL® Plastics Microfibre.

Machine washable up to 90°C. For increased service life and many uses, prefer a low temperature wash.

## **SECURITY**

Refer to the MSDS sheet and the information mentioned on the microfibre.
